SUMMARY

Motivated IT Support and Cybersecurity professional with hands-on experience in Windows and Linux environments, networking, troubleshooting, and security tools gained through Fullstack Academy's Cybersecurity Bootcamp. Skilled in technical support, problem-solving, customer service, and incident analysis with a strong ability to communicate technical concepts to non-technical users. Seeking an Entry-Level IT Support or Help Desk Technician role where I can apply my technical and customer service skills to support end users and contribute to organizational success.

TECHNICAL SKILLS

Operating Systems: Windows 10/11, Linux, Virtual Machines, Active Directory

Networking: TCP/IP, DNS, DHCP, VPN, Firewalls, Wireshark

Tools: Microsoft Office 365, Splunk, Nmap, Metasploit, Burp Suite, Remote Desktop, Git/GitHub

Scripting: Python, Bash, PowerShell, Command Line

IT Support Skills: Hardware & Software Troubleshooting, Printer Setup & Configuration, PC Setup & Maintenance, Peripheral Support, End-User Support, Device Configuration, Technical Documentation, Customer Service, Problem Solving

Certifications: CompTIA Security+ (In Progress) | CompTIA CySA+ (In Progress)

TECHNICAL PROJECTS

AI-Powered Insider Threat Investigation Simulator | Fullstack Academy Capstone | June 2026 |

<https://docs.google.com/document/d/1onG0wdKvj1F7KnOidp8jGNVHz3Gm4muLTmdccj0TUsk/edit?usp=sharing>

- Developed an AI-assisted simulator that analyzed login, file access, PowerShell, and USB activity logs to identify suspicious behavior and generate incident summaries.
- Consolidated four security log sources into a single investigation workflow, improving the efficiency of simulated security investigations.
- Utilized Linux command-line tools and scripting to collect, analyze, and document system activity.
- Created incident reports and defensive recommendations based on investigation findings.

EXPERIENCE

Paraprofessional | Procare Therapy | Hercules, CA | January 2023 – Present |

- Supported 10–15 students daily by implementing individualized academic and behavioral plans in collaboration with teachers and staff.
- Resolved classroom and technology-related issues by troubleshooting problems and adapting solutions in fast-paced environments.
- Maintained accurate documentation and communicated effectively with teachers, administrators, and support staff.
- Demonstrated strong customer service, conflict resolution, and problem-solving skills while supporting diverse student

needs.

- Managed multiple priorities simultaneously while maintaining a safe and structured learning environment.
- Assisted with basic technology support, including printer setup, hardware troubleshooting, and resolving technical issues for staff and students.
- Provided basic technical support by troubleshooting hardware, printers, and classroom devices, ensuring minimal disruptions to daily operations.
- Assisted staff with printer setup, device configuration, and resolving common technology issues, demonstrating strong problem-solving and customer service skills.

EDUCATION

Fullstack Academy Cybersecurity Analytics Bootcamp

January 2026 – June 2026

- Gained hands-on experience with Windows and Linux administration, networking fundamentals, incident response, and security operations.
 - Monitored and analyzed logs using Splunk and conducted vulnerability assessments using Nessus.
 - Performed threat hunting activities utilizing the MITRE ATT&CK framework and NIST Cybersecurity Framework principles.
-
